ABOUT ME

- Computer Engineer with experience developing 25+ apps/games (5,000+ users) across Google Play, itch.io, and GitHub. I also self-hosted/designed/developed multiple websites.
- Led teams of up to 9 person in month-long competitions; achieved top rankings in global game jams. Also, outside of competitions I have worked on apps and games that took as much as 5 months to make both with teams and as a solo dev.
- Has C#/Unity/Godot/Web Development/Linux/Self Web Hosting/Home Server certificates.
- Fluent in English and Turkish; creator of a programming-focused English YouTube channel.
- I have short videos of most of my completed projects in my Youtube channel. But some entries are not included in my videos; for example, I optimized my Auto Galton Board app performance by 57x on a 6-core CPU through algorithmic refinement (no overclocking/debloating).
